

# Apps Ideas

A top-down view of a collaborative workspace where several people are gathered around a table. The table is covered with hand-drawn diagrams and sketches. In the center is a large yellow circle containing a lightbulb icon with three lightning bolts above it. Surrounding this central circle are various other elements: a red circle with an open book icon, a blue circle with an eye icon, a green circle with a computer monitor icon, and an orange circle with a coffee cup icon. There are also gears, puzzle pieces, and arrows indicating a flow or process. The word "DESIGN" is written in the lower center, and "RESEARCH" is written in the lower left. The overall scene suggests a brainstorming session for app ideas.

---

# WorkoutMates

**Purpose:** Motivate users to exercise a certain amount of time each week.

**Features:**

- Users can select a virtual pet or plant as their workout buddy.
- The app tracks users' workouts and the calories they burn.
- Workout buddies are rewarded based on users' contributions at the end of the day.
- Users can collect virtual medals when they reach milestones.
- Includes a community feature where people can share the appearance of their workout buddy.

---

## GerocerysFinder

**Purpose:** Help users find deals and discounts at local grocery stores.

**Features:**

- Feeds discounts found in local grocery stores.
- Gathers all grocery information so users don't have to check each store's app to find the best deals.
- Allows users to place orders via phone for in-store pickup or delivery.

---

# DailyPainter

**Purpose:** A creativity-boosting app to allow users to create drawings every day.

**Features:**

- Users can do a five-minute drawing every morning when they wake up.
- Users can draw whatever comes to their mind or what they dreamed of.
- The app will rewind all the drawings at the end of the week, month, and year.
